SIMPLE AND NATURAL

NOVA epitomizes refined elegance. Its clean, crisp look is perfect for modern executives who appreciate both style and substance in their choice of office furniture. Simple and natural, the separate pieces of Nova combine to work harmoniously in the office space, enhancing the surroundings with a sense of tranquility while providing generous desk surface. Other desk features include a floating half-height modesty panel and stylish cable trunk to help keep wires under control. A separate credenza with file drawer combinations and open shelving bring this office suite together effortlessly, to offer ultra-modern, multi-functional versatility.

Full vertical cable management system is both attractively designed and protects the cables on their way from floor to desktop. The length/height of the riser is easily adjusted for adding or removing individual clip elements as required. The innovative "A" shape metal frame legs are available for typical workstation configurations and provide stability.

The swing door cabinet with soft-close hinge system that prevents cabinet doors from slamming shut and slowly and silently brings the door to a fully closed position.
